

THE **APA** BROADCAST

The Monthly Newsletter of Advanced Program Analytics

**People First,
Business Always**

APA Gets Involved

In May, Amber Anderson paid a visit to Naval Station Mayport in Jacksonville, Florida to put eyes on USS Detroit (LCS 7) during her availability. Over at Squadron, the crew and staff prepare for upcoming installations and and work being done on the ship. Amber was able to meet crew members and speak with them about the equipment onboard the ship, which resulted in a very successful learning experience.

APA had the opportunity to attend Sea Air Space 2019 ,at the Gaylord National Convention Center, 7 May 2019. This Expo is held each year by the Navy League whereby Industry and Government (to include key military personnel) come together to both educate and exhibit innovation in technology and equipment used within the DoD industry space. There were many exhibits on display and too many to explore all however, just to name a few APA visited; CACI, Alion Science and Technology, ManTech, Department of the Navy Office of Small Business Programs, Gulfstream, Raytheon, Rolls Royce, and a few others.

It was a great experience to see some of the advanced technologies and equipment being used and have an opportunity to network with some of these great companies behind the work. Look forward to 2020!

HAPPENINGS

Congratulations!

Join us in congratulating two of our very own, Luzanne Trotter and Amber Anderson, on their hard work for earning their CSM (Certified SCRUM Master) qualification. Lets also congratulate Luzanne again for her accomplishment in earning a Security+ Certification! These qualifications take personnel one step closer to further their careers.

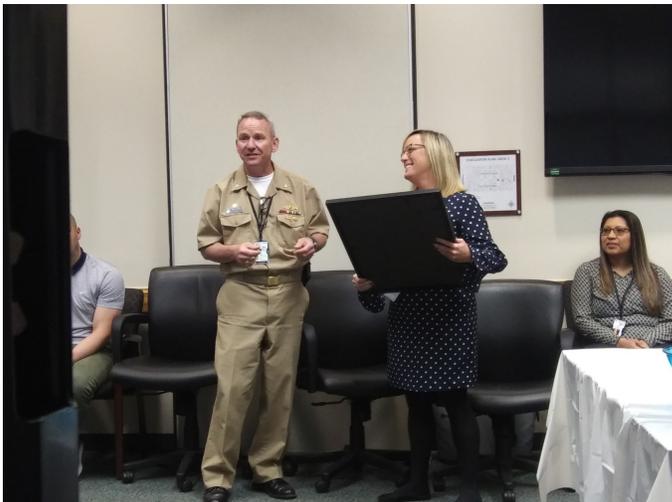

*PEO USC Program Executive Officer
Change of Command (From Admiral Neagley
to Rear Admiral Casey Moton)*

*Ms. Robin Kime celebrated her retirement as the
PEO USC PMS 505 PAPM. Congratulations
and enjoy your retirement, Robin!*

Down Range: A Transitioning Veteran's Career Guide to Life's Next Phase
A book by James D. Murphy and William M. Duke

Introvert or Extrovert?

Recently, the crew at APA had the opportunity to take the 16 personalities test and share the results with each other. It was enlightening, to say the least. It gave everyone an opportunity to see what their personality type is in the workplace, and also outside of work. Are you curious what your personality type is? It only take a few minutes. Go to

<https://www.16personalities.com/>

Who We Are

APA is a Certified and Verified Service-Disabled Veteran-Owned Small Business (SDVOSB) and has had noteworthy success since its founding in 2013. Through steady leadership and managed growth, APA is on course to achieve greater than projected outcomes through its next five years. APA provides Logistics services, Infrastructure Services & Solutions, Systems Engineering Services, Cyber Security Solutions, Cloud Computing, Technology and Professional Services, Research & Development, Engineering Services and Program Management to the Federal, State and Local Government Agencies, public sector, as well as commercial enterprises.

A Note From Our President

Picnics, trips to the beach, sunbathing at the pool, are some of the wonderful things of summer that we all may have been enjoying thus far. As we enjoy what remains of the summer season, we can also take a minute to reflect back on some of APA's highlights during the past few months and what is yet to come. With regards to our employees, I'm proud to see that we are building a stronger APA workforce by our employees continuously seeking and obtaining certifications that will not only build their personal portfolio, but will also add value to the team. A special kudos to the team as you continue to work hard on the PEO USC contract. It's always great to receive positive feedback about our team's work from both CACI and our government clients.

As we still remain to be in the pending process of being DCAA compliant and obtaining our 8A certification, I am confident that both will be obtained sooner than later. In the day of technology, there is still the human factor piece we must consider when there are processes involved and therefore, some things just take a little extra time.

With the end of FY2019 approaching and FY 2020 peering around the corner, we have our marks set to continue to work hard on proposals. We anticipate some award announcements for both work for Dept of VA and Navy and I look forward to sharing those updates with you in the next newsletter. As always, thanks to all for all your hard work and drive. I also would like to thank our APA teaming partners for all your support and for continuing to help us grow.

Until next time, Stay Cool and Keep Pressing!

APA is supporting The Department of Veterans Affairs, Strategic Acquisition Center, Veteran Enterprise Contracting for Transformation and Operational Readiness (VECTOR) as a Sub-Contractor. This is a Multiple Award, IDIQ contract that provides business and management support to the VA.
